conducting an extensive program, organizing exhibitions and events. The Warsaw City Hall, in accordance with the bilateral agreement with the Ministry, took responsibility for the construction of the new Museum building. In 2014, the Museum signed a contract for an architectural design with the American architectural studio Thomas Phifer and Partners. From April 2019 on the Plac Defilad, the new headquarters of the Museum is under construction, which is being carried out by the general contractor Warbud S.A. The planned date of completion of the construction is December 2022.

OBJECTIVES AND MISSION

The aim of the competition is to implement a temporary facility that is a lookout point that also combines the function of an information point, which will be located directly at the construction site of the new headquarters of the Museum on Plac Defilad.
